

“Unleash the power of your Rotary Printing Machine”

ROTARY SCREENS

Our more than 65 years of presence in the textile printing industry with more than 50 years of experience in screen making has enabled us to improve our rotary screens manufacturing techniques to meet today's rigorous global market quality requirements

- Our entire production of rotary screens is subject to an individual inspection i.e. perforation, thickness, ductility and open area.
- Our manufacturing flexibility makes it possible for our customer to obtain a non-standard screen as per their requirement.
- Supply of all normal type of screens from our factory at the shortest possible delivery schedules.
- Our sales people will gladly provide technical advice and help you in solving your engraving problems.
